5. Please comment on any aspect of this recitation.

4537. I found the workshops unnecessary and learned little from these. Most of the times I'd prefer using this time to go over past homeworks and problems or the overall material that is being taught at the moment.

4497. Recitation was often useful for reviewing material.

42137. Learned more from discussion than lectures.

41918. Workshops seemed useless, not TA's fault. Recitations should honestly have been exclusively an opportunity to ask questions and get more info on materials. Workshops were tangentially related and never had enough time to finish.

41837. The only thing that was strange was that he would start the discussion and end the discussion 5 minutes early. Other than that he was great.
